FIFTY EXCURSIONISTS DROWN LIKE RATS

Engineer Lost Control of Air Brakes, Train Went Through Draw.

Norfolk, Aug. 18.—Owing to the inability of Engineer D. L. Reig to control his air brakes, an excursion train from Kinston, N. C., bound to this city, plunged through an open draw in a bridge over the western branch of the Elizabeth river at Bruce Station, eight miles from Norfolk, yesterday afternoon, and half a hundred persons, mostly negroes, were drowned.

The list of injured, so far as can be ascertained, numbers nearly one hundred, though most of these are slightly hurt.

Among the victims the only white ones were Edward Joffe, manager of the excursion, and Edward Forbes, who assisted him, both of Greenville, N. C.

A force was sent to the scene to raise the sunken cars, which lie in about twenty-five feet of water. Until the cars shall be raised no accurate estimate of the number of dead can be given.

The train was composed of an engine and six passenger cars. The engine and two cars went through the draw, leaving the four rear cars on the track. One car was completely submerged and the other partly submerged. Nothing is visible of the engine, not even the smoke stack. It is believed that every occupant of the first car perished. The dead can be taken out only by diving under the car.

The scene following the wreck was one of indescribable horror.

ANTI-SPITTING LAW

Has Not Yet Been Handed to the Mayor.

Mayor D. A. Yelver has not yet received the anti-spitting ordinance and consequently has not signed it.

The clerk of the legislative boards has several days within which to deliver the ordinance to the mayor, who in turn has twenty days in which to sign or veto it. Mayor Yelver says he is in favor of any ordinance bettering the health and sanitary condition of the city, and although he will never tell in advance whether or not he intends to sign an ordinance, it is probable he intends signing this.

"Of course I will have to read it over several times, as is my custom," he explained, "and I will then sign it if it suits me."

Labor Question Serious.

Hopkinsville, Ky., Aug. 18.—The question of labor is getting to be a serious one with the farmers of this county. Negroes cannot be secured to work in the fields, except by the payment of exorbitant prices, and even then they cannot be relied upon for any length of time. The tobacco crops are ripening and must be saved at the proper time, or be a complete loss.

Yesterday a farmer approached a group of seven negroes in front of a saloon and offered them work. One of these was sufficiently interested to inquire about the matter at all.

Cairo Puts the Lid on Tight---Strict Quarantine Being Enforced There

Cairo, Ill., Aug. 18.—Cairo and Southern Illinois are now quarantined against the state of Louisiana and Mississippi, and all fever infected points in other states, and no passengers coming from either of those states or places will be admitted to this city, unless they can show health certificates signed by a duly authorized and accredited board of health, showing that they have not been in the above named sections within ten days.

Furthermore the city of Cairo is quarantined against the world, and no person can come into this city from any place unless he can show a health certificate that he has not been in a fever infected district in ten days.

The regulations were the basis of a stringent order issued last night by Dr. J. A. Egan, secretary of the Illinois state board of health.

with the shrieking of men, women and children who were drowning, struggling out of the partly submerged car and floating in the river. The uninjured passengers immediately began to rescue those imprisoned in the cars.

Many people in the neighborhood went to the scene of the wreck and helped in the rescue. The injured were taken to the track embankment and were attended by the physicians.

Collins Ferguson, the negro bridge tender of the Atlantic Coast Line, was knocked from the bridge by the impact and killed. Engineer Reig and Fireman Alfred Cooper, a negro, escaped by jumping.

Eighteen bodies were recovered from the wreck today, almost all negroes. It is believed that when the submerged passenger coach is hoisted at least twelve more bodies will be recovered. An investigation has been started to ascertain the cause of the accident.

Whole Car Load Drowned.

Norfolk, Aug. 18.—Divers this afternoon were sent to the bottom of the river at the scene of the Atlantic Coast Line railroad wreck and found a full car load of men, women and children, who had been drowned like rats in a trap. The number of victims just found will pass fifty. The divers say the scene on the bottom of the river was the most horrible ever witnessed.

and he asked what wages would be paid. The farmer told him \$1 per day and board, to which the negro replied: "Well, I don't guess you want me."

SULTAN WILL NOT ACCEDE TO DEMANDS OF FRENCH

Fez, Morocco, Aug. 18.—The sultan has declined to accede to the demands of the French minister for the payment of an indemnity and the release of the chief of the Algerian settlement at Gharb, who was arrested in consequence of local troubles. The sultan claims jurisdiction over all Algerian settlers in Morocco.

The incident may lead to important developments.

Resolutions for Tariff Convention.

Chicago, Aug. 18.—Resolutions favoring a minimum and maximum tariff were drawn up today by the committee on resolutions of the national reciprocity convention to be presented to the assembly. These resolutions advocate a form of reciprocity which will give a low tariff to nations favoring the United States commercially and a high tariff to countries which discriminate in tariffs against us.

Jealousy Causes Tragedy.

Hutchinson, Kan., Aug. 18.—Enraged because she believed she had been supplanted in his affections by a younger woman, Mrs. Sallie Williams shot and killed James Frank and committed suicide.

FIRST GUARD MOUNT OF 1ST REGIMENT

The Ceremony Was Very Finely Carried Out.

A Number of People Witness It—
Louisville Boys Show Fine
Training.

CAMP NOTES OF INTEREST

The first dress guard mount of the First regiment took place this morning at 9 o'clock. The men drilled well and Prof. Wm. Deal's band made a good showing for the short time it has been in training, under Drum Major William Parrent, of Frankfort, who is a member of the Second regimental band. There were several young ladies out to witness this feature, which is one of the most impressive of the daily routine. The guards during actual hostilities have the most responsible work to perform. They do patrol duty and have the lives of the regiment in their hands, as they have to be constantly on the watch for the enemy. The guard mount is principally to fit them for the day's work. All their guns are carefully examined by the officer conducting it to see that they are in first class condition.

Sick Soldiers Sent Home.

The first sickness in the regiment developed yesterday evening. Lieutenant Wilson, company I, and Private R. W. Fowler, company G, reported to the hospital and were found to have fever. Surgeon General McCormack and Captain Meyers sent them back to Louisville so they could be cared for at home. Lieutenant Wilson left last night and Private Fowler left this morning accompanied by a member of the hospital corps. Private Fowler is a son of Colonel J. W. Fowler, superintendent of the Kentucky Military Institute, which is located near Louisville.

Government Officers Arrive.

Sergeant James B. Stoner, company F; Sergeant Leo A. McIntyre, company L; Sergeant William C. Cox, company M, and Corporal James Phillipsen, company H, non-commissioned officers from Ft. Wayne, Mich., arrived this morning to assist the other non-commissioned officers from the regular army in the instruction of the privates. Each company now has one non-commissioned officer.

Religious Services Sunday.

Sunday will be a day of rest with the soldiers. This regiment, like the Second, is also without a chaplain, but there will probably be a religious service conducted by Colonel Noel Gaines, inspector general. Colonel Gaines has delivered many religious talks and is especially fitted to talk to the soldiers. After guard mount Sunday morning Colonel Hindman will make a regimental inspection in quarters. This will conclude the daily routine until 5:30 o'clock when the dress parade will take place in the baseball park. The report that the dress parade had been changed is wrong. It has always taken place at 5:30 p. m. and The Sun was the only paper in Paducah to give the exact hour of the governor's review which was the same hour when he inspected the Second regiment.

Show Good Training.

Yesterday evening the first dress parade of the First regiment was held. Those who saw it say the soldiers reflected great credit on Colonel Hindman as a commanding officer. They responded promptly to his orders and as they passed in review kept perfect step. Prof. Deal's band also did well for its first participation in a military parade.

Officer of the Day.

Captain Ben Gray, company H, is officer of the day; Private Selby Sale, company F, junior officer of the guard, and Robert Alter, company D, senior officer of the guard.

Next Monday Pay Day.

Paymaster General Mott Ayres has selected Monday as pay day. He will have several more men to pay than were the Second regiment but he is going after a record. His assistants are capable men and will have every envelope ready for each company. The envelopes are arranged according to the formation of the companies so as each soldier passes the paymaster's tent his name is called.

BONES WERE BROKEN.

In Wrist of Little Son of Mr. W. O. Sutherland.

The five-year-old son of Mr. W. O. Sutherland, of the local I. C. shops, is suffering from a very badly fractured arm the result of a fall yesterday afternoon.

The boy had been playing with several companions and was accidentally thrown over on his back. He put his right arm behind him to break the fall and experienced a very sharp pain. He began to cry and went home, sitting on the front steps until found by his mother.

The mother asked the little fellow what he was crying about and he replied that his hand hurt. She took the arm to examine it and the hand fell limp, the bones having been fractured at the wrist.

A physician was summoned and dressed the injury which is a very bad one.

HON. CHARLES JETTON

Dies at His Home in Murray, Calhoun County.

Murray, Ky., Aug. 18.—Hon. Charles Jetton, one of the most brilliant young lawyers of the Calhoun county bar, died at his home here early this morning. He was operated on for appendicitis forty days ago, and his rally was but temporary. He leaves a widow and three children.

RUSSIANS SANK THEIR OWN SHIPS AT PORT ARTHUR.

London, Aug. 18.—The Times correspondent at Tokio telegraphs:

"It is now ascertained that the Russian warships at Port Arthur were not blown up or sunk by gunfire. The Russians opened the valves, having previously greased and otherwise protected the machinery and other vital parts. Evidently the capture of 203 Meter Hill exposed the ships to such danger that the Russians decided to sink them pending their recovery, when the command of the sea was gained by the Baltic fleet."

Teachers' Examination Held.

County School Superintendent A. M. Ragsdale is today holding examinations at the court house for county teachers' certificates. The following are those taking the examination: Maybelle Jenkins, Woodville; A. E. Thompson, Ragland; Victor Wallace, Oak Level; Dora Driffin, city; R. C. Wood, county; J. G. Miller, Benton; Cody McClure, Symsonia; Lulu Glass Benton, colored, is taking a special examination for a state teachers' certificate. The examinations will last through tomorrow.

Messenger Gets \$10,000.

Chicago, Aug. 18.—Gus Bobbs, a messenger employed by the dry goods house of Charles A. Stevens & Bros., has disappeared with \$10,000 of the firm's money and a reward of \$500 has been offered for his capture. Bobbs was employed in place of the regular messenger who is on a vacation. He was sent to the bank yesterday afternoon to make a deposit, carrying \$10,000 with him. He did not appear at the bank, and later it was learned he had left for New York over the Nickel Plate road.

Heat Much Felt.

Although the temperature has not been near so high for the past several days as it has been this summer, people seem to have felt it more. This is because of the humidity or "closeness." Yesterday the maximum was only 88, and yet it seemed to be about 100. Today Government Observer Bornemann thinks the maximum will not go above 90. Rain is predicted and expected.

Arrested for Larceny.

Emma Toliver, colored, was arrested this afternoon for stealing a comb from the Phil Stephen drug store. She went in to buy a comb and having several before her is alleged to have secreted one in her clothing, but was caught in the act.

—The excursion train from Anna and Makanda, Ill., came near being hit by another I. C. passenger train down about La Center this morning on account, it is said, of the air brakes failing to work. Fortunately no one was hurt and there was no damage.

FEWER DEATHS IN THE FEVER ZONE

The Decrease in Deaths and Cases May be Temporary.

The Physicians in Charge, However,
Seem to Feel Encouraged at
Their Success.

YESTERDAY'S DEATHS, FOUR

New Orleans, Aug. 18.—Report to 6 p. m. yesterday:
New cases 44
Total cases 1,223
Deaths 4
Total deaths 180

Still Decreasing.

New Orleans, Aug. 18.—Fourteen new cases and one death had been reported to noon.

To Stop Towboats.

Cincinnati, Aug. 18.—The health authorities will stop the towboats entering from New Orleans, which are supposed to be infected with yellow fever, before they reach the city. The crews will be sent to an isolated hospital and the boats be fumigated.

People Still Sanguine.

New Orleans, Aug. 18.—Aside from the fact that the systematic work of the federal authorities and full compliance by the local physicians with Dr. White's request for a report of every suspicious case, again developed a stout total of new cases of yellow fever yesterday, the local situation continues to give satisfaction. Even the most pessimistic of the community are beginning to take a cheerful view of the outlook, believing there is little danger to be feared from attack of fever in its present form. Even with the present measure of improvement, however, there has been and is to be no relaxation of supreme efforts being made to wipe out the fever.

The discovery of nearly a dozen cases of yellow fever at Mississippi City and the fact that Jackson has tied up the Gulf and Ship Island road by a declaration of quarantine against the entire Mississippi coast leaves New Orleans the only avenue to the Gulf coast towns. Several thousand people here summer on the coast, including bankers, merchants and professional men. Many have handsome homes there.

Dr. R. B. Leach, of Minnesota, delivered an address last night on his arsenization theory. Leach is disappointed at the failure of the medical fraternity to co-operate with him in his experiments. The doctors here, however, are practically a unit in the opinion that arsenization will render no one immune to yellow fever, holding that the theory is not new, that it has been tried and that it has been unsuccessful. Meantime thousands of people here are daily eating arsenic.

New Fever Cases Reported.

New Orleans, Aug. 18.—Thousands of pounds of sulphur are being purchased by citizens, in preparation for the general Sunday fumigation.

A nest of a hundred cases of yellow fever and dague fever were found at Leesville, Lafourche Parish and five new cases are reported at Hatterson.

Suicide Near Maysville.

Maysville, Ky., Aug. 18.—James Reed, of Mayslick, committed suicide last night by almost severing his head with a razor. He recently purchased a farm and became despondent at his inability to make the payments.

100 Lives Lost.

Sydney, N. S. W., Aug. 18.—Confirmation of the report that the Marshall Islands were visited by a hurricane and a tidal wave June 30 has been received here. One hundred lives were lost.

One good thing about having bad habits is how proud your wife can be every time she reforms you.

Some men would rather get chewed up in an automobile accident than to be safe and well in church.

THE SITUATION IS ALMOST CHEERLESS

Japan and Russia Have Virtually Accomplished Nothing at the Conferences.

Portsmouth, Aug. 18.—The following official announcement was made this afternoon: In the sitting this morning of the conference there was continued discussion, article eleven not being finished. The discussion will be resumed at 3 o'clock. Article eleven refers to the limitation of Russia's naval strength in the far east.

Moscow Also Confident.

Moscow, August 18.—Everything yet known in high quarters here confirms the opinion that Russia and Japan will shortly conclude a treaty of peace. Mr. Witte left St. Petersburg authorized to pay Japan, in one form or another, \$500,000,000 and cede to it half of Sakhalin Island. This fact was communicated to the correspondent of the Globe Democrat by a prominent member of Witte's suite, whose name figures daily in the dispatches from Portsmouth.

To Adjourn Until Monday.

Portsmouth, Aug. 18.—Before the departure of the peace envoys for the navy yards conference this morning, the announcement was made that when adjournment is taken today it will be until Monday.

Will Offer \$510,000,000 and Sakhalin Lease.

St. Petersburg, Aug. 18.—The peace outlook is brightening, according to persons prominent in court circles. Opinion at Peterhof, in not contradicted with the prevailing pessimism of this city. The Globe-Democrat's correspondent is informed from a reliable source that Witte will offer to pay a milliard of roubles (\$510,000,000) as war expenses and grant to Japan a lease of Sakhalin Island. Count Lansdorf is understood to believe that Baron Komura will accept these terms, as otherwise a coalition of the powers would impose upon the Japanese government a less advantageous peace.

Pessimism Again Reigns.

Portsmouth, N. H., Aug. 18.—The crisis in the peace conference has been reached and pessimism is again the note. But there is hope.

Predictions of final rupture today certainly will not be justified unless Komura figuratively picks up his hat and announces that it is useless to proceed further. Witte at least will not be precipitate.

At today's session, after article 11 (limitation of Russia's sea power in the far east) and article 12 (fishing rights on the Russian littoral) are disposed of he will favor adjournment until Monday.

The pessimism last night was based on the fact that no progress was made yesterday. The exchange of views at the morning session over article 9 (remuneration for "cost of war") showed at once that the plenipotentiaries were far apart and it was passed over. Article 10 (surrender of interned Russian warships) was also passed, not in the opinion of the plenipotentiaries, when the Associated Press saw him tonight, because it could never be arranged, but because with the shadow of the two main points in the dispute hanging over the conference, both sides were cautious and preferred to postpone it to the end.

Article 11 (limitation of sea power) is also adjustable after modification, and article 12 will present no difficulties. So that last night the situation was practically what it was when Witte last Saturday presented the Russian reply with its non-positivisms to articles 5 and 9 (indemnity and Sakhalin.)

The only chance is a compromise—Russia to yield Sakhalin and Japan indemnity. Neither will yield both and perhaps Japan will yield neither. Witte, under imperial indications contained in the instructions given him before he left St. Petersburg, can agree neither to pay a war tribute nor cede a foot of Russian soil.

St. Petersburg, therefore, in the last resort, remains to be heard from. From an authoritative source the Associated Press received a distinctly bad impression regarding the out-

look. It was coupled, however, with the expression of hope that if it developed that the conference was going to pieces President Roosevelt might again step in.

Preliminary discussion of Japanese conditions is already virtually ended. It is not improbable the final report and recommendations of the Russians plenipotentiaries was passed upon and transmitted to the emperor at Peterhof. It can be stated that the individual views of the members of the Russian mission differ as to what point should be yielded if a compromise is to be offered. Some favor surrender of Sakhalin, others an indemnity. None are ready to give up both points.

Had Valuable Documents.

Portsmouth, Aug. 18.—When the Japanese envoys started for the conference this morning one of the party carried a large suit case, which was filled with papers and documents of a confidential nature and was carefully guarded. In addition to this each of the four secretaries had under his arm a black portfolio. These contained the minutes of the previous meetings.

Japs itching to Fight.

London, Aug. 18.—A Tokio dispatch says that the throne received Wednesday a strong memorial from Field Marshal Oyama, and all the generals, declaring that the forces are anxious to deliver a crushing blow to the enemy, and strenuously advocate the imposition of more severe terms on Russia.

Placards Attack Sultan.

Constantinople, Aug. 18.—Placards attacking the sultan have been posted on mosques throughout the city and the action has caused considerable excitement. The placards say: "The present sultan is unworthy to rule and ought to disappear. The time is now ripe." It concludes with the words: "Justice and Liberty are our principles."

Gave Birth to Seven Children.

Honolulu, Aug. 18.—A dispatch by wireless, telegraphy from Hilo says that Hana, the Hawaiian wife of Kailua, a Chinese, gave birth to one child last Thursday, two Sunday, one Monday, two Tuesday morning and one Tuesday night. All are dead.

To Nominate a Coroner.

The Democratic county committee will be called by Chairman W. A. Berry to meet the latter part of this month or early next month to fill the vacancy on the Democratic ticket resulting from the death of Coroner J. F. Crow, the Democratic nominee for coroner.

Dent at Epperson.

Will Houston, colored, age 22, of Epperson, died of consumption this morning. The remains will be buried tomorrow at Stiles.

To Blow Up the Town.

Constantinople, Aug. 18.—Advices from Smyrna say that an anarchist plot to blow up the town has been discovered.

Threw Dead Dog in River.

Jack Kelley, white, who insisted on throwing a dead dog into the river at the wharfoat, was arrested for a breach of ordinance this afternoon.

MAIL CLERK

BRINGS AN IMPORTANT TEST
SUIT AT ST. LOUIS.

Affects Railway Mail Clerks All Over
the United States and Involves
Thousands.

St. Louis, Mo., Aug. 18.—An important suit, involving the liability of the government to pay the traveling expenses of railway mail clerks was brought yesterday in the United States circuit court yesterday by Ichabod K. Parshall of St. Louis, a former railway mail clerk. The suit is regarded as a test case, and was brought at the instance of the railway mail clerks' national association, as the result of an agitation started among the members of the association throughout the country. The United States is named as defendant.

This is itself an unusual proceeding, as the government can be sued only in rare instances and on exceptional grounds. Service was secured by process directed to Attorney General Moody and District Attorney Dyer.

Parshall was a railway mail clerk for a number of years in St. Louis division. He resigned six months ago and is now employed by E. G. Lewis of the Woman's Magazine. From August, 1899, to July, 1904, Parshall was on a mail run from St. Louis to Council Bluffs, Ia. His run was so arranged that he had to lay over night in Council Bluffs before returning to St. Louis. The suit is to make the government pay for his meals and lodging at the end of the run. As nearly every railway mail route in the United States requires the clerks to lay over at one end or other from six to 24 hours, the success of the suit would mean that the government would be obliged to pay back claims to thousands of clerks. The amount would run into the millions, it is estimated. Parshall's bill is for \$1200.

Yesterday's Results.

Vincennes 3, Paducah 2. (14 innings.)
Calro 6, Princeton 5.

Fourteen innings at Vincennes. Vincennes, Ind., Aug. 18.—Another brilliant contest was pulled off yesterday by the locals and Indians, the former winning by a nose in the fourteenth inning. There were numerous errors by both teams but most of them came at a time when there was no danger.

Paducah's new find, Douglas, a left-hander, picked up off the Paducah lots, was in the box and proved he was the right kind of material for league company. He has wide curves and plenty of speed. His performance was remarkable for his first league game.

Forney, a catcher, out-fielder and somewhat of a pitcher, did good work in the box for the locals.

The summary is:

Princeton	4	6	3

President Gus Thompson, of the Paducah Baseball Association, this morning received a telephone message from the manager at Vincennes saying that the Indians would remain in Indiana a few days longer to play independent ball through that portion of Indiana.

Potts has written here to a friend saying he had been ill for several days and was hardly able to be up. The boys are in pretty bad shape as a team.

BACK TO TENNESSEE.

Fugitives Arrested Here Last Evening.

Two fugitives from justice were captured in Paducah last night and turned over to officers this morning, to be taken back to the scene of the alleged crimes.

Will Jackson, colored, was arrested by Detectives Moore and Baker last night on a bench warrant from Henry county, Tenn., charging him with malicious shooting with intent to kill.

Happerd Howard colored, was arrested by Officer Hartley and Sheriff W. E. Edwards, of Henry county, Tenn., on a charge of obtaining money by false pretenses.

Sheriff Edwards came here last night with the bench warrants and a search was instituted for the negroes. They were soon caught and this morning delivered to the sheriff to be taken back to Tennessee.

WILL GREEN HURT

POPULAR YOUNG MAN HAD NARROW ESCAPE AT METROPOLIS

Water Column on Big Boiler Fell and Struck Him in Face and Head.

Mr. Will V. Green, traveling salesman for the H. A. Petter Boat Store company, had a narrow escape from death in the boiler room of the Bending Works plant at Metropolis, Ill., yesterday afternoon.

The plant is not in operation at present, some work being done on the boiler, and Mr. Green was standing in front of the boiler watching the work when the water column, which had been disconnected, fell and struck him a glancing blow on the head and shoulder.

The water column is a pipe that extends up in front of the boiler to the water gauge, and is quite heavy. The blow inflicted two painful wounds on Mr. Green's head and an abrasion on the nose, and badly bruised his left shoulder. He was rendered unconscious by the lick, but was soon able to leave on his return to Paducah. He is confident that all that saved him from serious injury was that his shoulder partially broke the force of the fall of the piece of pipe.

FORMER KENTUCKIAN

Dies in Texas—Mother of Mr. Q. B. Love, Formerly of Paducah.

Smithland, Ky., Aug. 18.—The remains of Mr. Newton M. Love, once a prominent citizen of the Salem section of Livingston county, but for the last two or three years a citizen of Kemp, Texas, were brought here and buried. Mr. Love was about 64 years old and was born and raised in Caldwell county. He was the son of Rev. W. C. Love, a pioneer Presbyterian minister of Caldwell county. Mr. Love moved from Caldwell to this county and settled near Salem several years ago, and made that his home till March, 1902, when he went to Texas, settling in Kemp. His remains were accompanied to this county by his son, Mr. Q. B. Love, who was once a citizen of this place and also of Paducah.

POST SEASON GAMES WILL BE PLAYED

Paducah and Vincennes to Start a Series of Eight.

Decided Not to Disband the Paducah Team at Present—Independent Ball to Be Played.

GOOD GAMES BEING ARRANGED

The Paducah baseball team will not be disbanded at present, arrangements having been made to play independent ball, and several games have already been booked.

The team will remain in Vincennes for a post-season series of four games, and returning to Paducah with the Vincennes team, a series of four more games will be played with that team here.

Dates are being arranged for games with Poplar Bluff, Mo., and several other fast independent teams as well as with some of the Cotton States league teams. Paducah can easily find plenty of games for a month yet. Probably a few games can be arranged with some of the Central league teams, Evansville in particular, on off dates.

Vincennes will also keep its team intact and play independent ball. Either Paducah or Vincennes can give any of the minor league or fast amateur teams a run for their money and the management anticipates no trouble in booking dates.

The disbanding of the Kitty league is regretted by all lovers of the game and especially by Paducah fans. The local team has done much to advertise the city and has been the means of demonstrating that the city will support the right sort of sports. Plans are already on foot to have Paducah represented in a good league next season and the players will be reserved.

Returns From Jackson—No Formal Action on College Location.

Rev. T. J. Newell, who has returned from the meeting of the board of education of the Memphis conference at Jackson, Tenn., reports that the board gave loans to fourteen young men attending schools for the ministry at Vanderbilt, Clinton college, Martin, Tenn., and McKendree, Tenn.

Mr. Newell made no report on the work of the local people in their efforts to secure the Methodist college and the board, while it has no authority in the matter, approved of Paducah as the location of the college, and all said that Paducah should get the college. This board is in the Memphis conference, while the conference which has the college matter in hand is the Kentucky northern conference.

Mrs. Mary G. Foster Dead.

Mrs. Mary G. Foster, the aged mother of Mrs. Robert H. Boyd, died at her home in Salem, last Saturday night. She was perhaps the oldest woman in Livingston county. Had she lived till November she would have been ninety-six years old. For the last twenty years she made her home with her son-in-law and daughter, Mr. and Mrs. R. H. Boyd, of Salem, and up till within a short time of her death, she was remarkably active and healthy for one of her advanced age. She was buried Sunday at the old Davis graveyard, between Salem and Smithland.—Smithland Democrat.

GETTING READY

COMMITTEE APPOINTED FOR THE HORSE SHOW.

The Performance to Be at the Baseball Park in October.

The horse show is booming and the men back of it mean business. Last night there was a meeting of the recently elected directors of the horse show association at Commercial club headquarters and the most important committees were named, these are:

Executive committee, J. M. Lang, George C. Wallace, Richard Rudy and A. J. Becker; committee on program, J. M. Lang, chairman; D. L. Gregory, John W. Keller and Richard Rudy.

The horse show will be held in the baseball park in October and the seating capacity of the park in the meantime will be increased, and electric lights will be put all over it, as the performances will be at night, except matinees for children.

Three young ladies from each of the surrounding towns will be appointed sponsors, which will serve to arouse interest everywhere, in the event.

The advertising committee will begin work as soon as the program is completed.

There are several other committees to be appointed, but they are not necessary until after the program is arranged and accepted. This is expected to be at a meeting to be held next Thursday night.

Daily Thought.

"All things are less dreadful than they seem."

NO DEBT COLLECTING BY CANON.

In his Chautauqua address the other day President Roosevelt said some things which are of lasting interest to the world, as well as to the United States, says the Globe-Democrat. Speaking of the troubles which ensue when any of the Latin-American nations refuse or neglect to meet their financial contracts with the citizens of other countries, he said: "Our own government has always refused to enforce such contractual obligations on behalf of its citizens by the appeal to arms. It is much to be wished that all foreign governments would take the same view. But at present this country would certainly not be willing to go to war to prevent a foreign government from collecting a just debt or to back up some one of our sister republics in a refusal to pay just debts. And the alternative may in any case prove to be that we shall ourselves undertake to bring about some arrangement by which so much as is possible of those just obligations shall be paid."

Our own practice in refusing to use force in the collection of the claims of our citizens against Latin-American governments should be made the rule of conduct for all nations. Our government can make this the rule if it insists upon it. Every foreigner—American, Englishman, German, Frenchman and everybody else—who invests money in any of the countries south of the Rio Grande, except Mexico and one or two others, knows that there is a large element of hazard in his undertaking. He charges for this risk in the terms which he imposes. The price which he exacts is in proportion to the extent of the hazard, as determined by the reputation of the particular country in which he invests, or as indicated by the peculiar situation in that country at the moment. It is all a matter of speculation. He enters into his speculation with his eyes wide open. But it is no part of his home government's duty or right to back him up if the speculation turns against him. If he wins, he makes a large profit by the undertaking, and he keeps the profit to himself. He shares none of it with his government. If he loses, his government is under no obligation to enter into an expenditure on its own account to help him, by a naval or military demonstration or by war to collect his claim. Knowing the risk at the outset the speculator must be compelled to look

to the courts of the offending country for redress, and not to the fleets or armies of his home government.

There's nothing so refreshing in these days of "graft-busting" as candor. The state's attorney at Metropolis, Ill., has decided to "put the lid on." There must be no more Sunday liquor selling, for with guileless frankness the attorney says in a card to the public: "You know that when you allow anyone to enter your place of business at any time after 12 o'clock Saturday night, until after 12 o'clock Sunday night for the purpose of obtaining liquor you violate the law. You know that; and, knowing it you are really entitled to no consideration from the officers whose duty it is to enforce the law. But, inasmuch as you have been indulged in the practice for a number of years, I deemed it the most neighborly and friendly plan to inform you that the law is going to be strictly enforced, from the time mentioned above. I have no wish to hurt anyone, but having deliberated over the matter for some time and consulted with my co-officer, the sheriff, I have come to the conclusion that if the Sunday closing law is a bad law it should be repealed, if it is a good one it should be enforced. Not having the repealing power, and not knowing whether it is good or bad, I have made up my mind that it must be made good or demonstrated to be bad."

The Smithland Democrat piously observes: "If people in general were as enthusiastic about the religion of Jesus Christ as they are about politics, it would not be a great while till the Lord would come to the earth again to claim his own. With the same amount of energy and money spent in prosecuting the work of the Lord, that is spent in conducting political campaigns in this county, it would not take but a few years to convert the entire population to the religion of Jesus Christ." The Democrat then proceeds to use up its entire editorial page with red-hot political stuff. The above was the only editorial not exclusively political in its nature.

The mayor of Paterson, N. J., has turned out to be a defaulter, swindler and forger, and the police everywhere are searching for him. He was one of those "reform fellows." He was a Dr. Jekyll publicly and a Mr. Hyde in reality. Numerous examples daily call attention to the fact that all rascals to be shunned the pious rascal is the worst. Those men of benevolent mien and honeyed words, when they are bad, are the worst in the world, and usually the most successful because they are the least suspected. When you run across one of these I-am-godlier-than-thou-men, steer clear of him. He is often only an egotistical ass, but frequently he is a scoundrel of the worst type.

If the people of New Orleans would let up on the mosquitoes a while and start a crusade against those 70,000 clisters, it is likely the yellow fever epidemic would disappear quicker.

The Kentucky Undertakers' Association has prohibited its members from advertising. A little of this policy will soon enable them to use up some of their stock in giving their business a decent burial.

The nebular theory of the earth's creation has been discarded—but by only two scientists, and they live in Chicago. To live in the Windy City is enough to shake one's belief in most any kind of a theory.

A St. Louis medical journal pays the Paducah board of health a high compliment for maintaining the "open door" policy in regard to quarantining.

CROSSED WIRES KILL TWO IN CAIRO

Grocer and Customer Found Dead by a Boy.

Incandescent Wire is Supposed to Have Been Crossed by One of Stronger Current.

JOHN P. MOCKLER A VICTIM

Cairo, Ill., Aug. 18.—Mr. John P. Mockler, of Twenty-eighth and Poplar streets, and Oscar Reynolds, a colored man, were both instantly killed by an electric shock from a live wire at the grocery store of Mr. Mockler on Twenty-eighth and Poplar streets at 5 o'clock yesterday afternoon.

Mr. Mockler had gone into the warehouse at the rear of the main building to draw coal oil for Reynolds and Reynolds followed him, the coal oil pump being located just at the side of the door in the warehouse, and a large ice box stood next to the pump.

Mr. Mockler had an incandescent light with a long connection that he uses as a kind of handlight to go around with to different parts of the warehouse. This he had in his hand while drawing the oil and it was at this time that the wire burned. The positions in which they were both found shows that as Mr. Mockler was shocked to death he fell towards Reynolds, knocking him down and in doing so the wires came in contact with Reynolds, shocking him to death, also.

Mr. Mockler was burned on the arms and hips while Reynolds was burned on the chest and side.

The discovery of their condition was made by the colored delivery boy named Johnnie Freeman, who went back into the warehouse to get something and as he entered the door he smelt the burning of their clothing and looking, beheld the awful sight.

The supposition is that the wire that Mr. Mockler had in his hand had got crossed with another wire of a much stronger current which caused death so sudden, as the power of the small wires connecting the small lights is not strong enough to cause death. Reynolds had a pocketbook with some silver in it, which was burned to pieces. The money was also considerably melted.

Mr. Mockler was a single man and a member of the local lodge of Elks and of the Knights of Columbus, and was one of Cairo's best citizens.

Oscar Reynolds was better known as "Jay Gould," being prominent with the colored people in politics.

NO NEW POLICIES

WERE FOUND IN LUMBER CO.'S SAFE YESTERDAY.

It is Now Admitted That Louisville Bank Has a \$100,000 Policy.

P. G. Rudolph, administrator of the H. A. Rose estate, and his attorney, Mr. W. V. Eaton, have about completed the search for insurance policies on the life of Rose, and find that if all policies were good, Rose would have insurance amounting to more than \$50,000.

Yesterday by agreement the administrator looked through the safe in the office of the Kentucky Mill and Lumber Co. Half a dozen policies were found and represented insurance amounting to \$27,000, but all had lapsed and are null and void. The policies were in the Manhattan, New York Life, Equitable and Mutual life companies.

The administrator and attorney held a conference with H. H. Lovings and one of his attorneys, J. C. Flournoy, and learned that the \$100,000 policy in the National Life of Vermont, has in reality been pledged to the Western National bank, of Louisville as reported, a debt of the Kentucky Mill and Lumber Co.

No definite plan has been outlined, but the administrator is now preparing proof of death for the purpose of collecting the policies, and expects to have all these particulars completed by next Tuesday or Wednesday. It is understood that the administrator will make every effort to collect and turn into the estate, the \$100,000 policy held by the Louisville bank for the estate which probably means a big lawsuit.

HOW YELLOW JACK WAS SPREAD IN 1878.

(St. Louis Post-Dispatch.)

How in the midsummer of 1878 an infected steamboat carried yellow fever from New Orleans as far north as Gallipolis, Ohio, is one of the most remarkable episodes in the history of epidemics. At that time it was not yet known that mosquitoes carried the infection and the blind terror of all exposed to the disease was pitiable. The story of the pest boat's trip is graphically told in a book, "The French Five Hundred and Other Papers," by William G. Shibley, a newspaper man of Gallipolis, Ohio. It follows in part:

"It seems inconceivable that a craft, known by the government authorities at every important port between New Orleans and Gallipolis to be infected with the plague, should have been permitted to pursue her dismal course north, scattering the seeds of disease as she went. It is little to the credit of humanity that the sole object aimed at by the officers of every town the boat approached was to get her away at any cost.

"The towboat John A. Potter, with a load of 18 barges, which extended 700 feet in front of her bow, and a crew of 35 persons, left New Orleans July 18, 1878, a few days after the outbreak of the plague in that city, bound for St. Louis and Pittsburgh.

"One day after the departure from New Orleans a fireman fell sick after standing his first watch. When the boat arrived at Vicksburg, July 21,

STRANDED HERE.

One Couple and a German Claimed They Were Robbed.

A double robbery is alleged to have occurred on the steamer City of Saltillo last Friday as she was coming from St. Louis to the Tennessee river. Will Stackhouse and wife, from Gainsboro, Mo., en route to Murray, Ky., claim they were robbed on the boat Friday night. Mrs. Stackhouse stepped out of her stateroom just before the boat reached Cairo, leaving her pocketbook containing \$24 in change hanging on the wall. When she returned the pocketbook was open and all but a dollar and a half was gone.

A little later Mr. A. E. Antell, of Minneapolis, a tailor by trade, reported the theft of his pocketbook containing \$12. Antell, who is a German, was on the lower deck asleep when the robbery occurred. He claims that he was dozed, as he is ordinarily easily awakened. His hip pocket was cut open and the money, all he had, was taken from him.

They came on here, where they found themselves stranded. They all went to Lemuel Greff's boarding house, at 323 Jefferson street. Mr. and Mrs. Stackhouse yesterday received funds and left for Murray. But Antell is still here, and says he cannot get employment and has no money and no friends to whom he can apply for relief.

GILLIGAN GOES.

Does Not Know Whether He Will Get His Release or Not.

Eddie Gilligan, first baseman and formerly captain of the Paducah baseball team, left at noon for his home in Plaquemine, O., to remain the rest of the season.

I wanted to secure my release from the team," he stated this morning, "but do not know whether I will or not. My side of the affair, which caused me to quit the team as far as actual playing is concern-

ed, may be brought out at the proper time, but as far as the public is concerned it may understand that simply Manager Lloyd and I did not get along very well together."

Gilligan likes Paducah and was one of the headiest ball players in the league. Gilligan coached and trained the team in team work and to him can be attributed the biggest portion of the team's success in the league.

It is hoped that Gilligan will be seen in Indian garb again next season.

Pointers on Investments.

In the first place, we can show you where you can get an investor or a speculator. An investor prefers safety to income. A speculator prefers income to safety. The investor is a nifty and in the long run comes out ahead. The speculator as a rule is the fool who learns in the school of experience, and Franklin has said, "Will learn is no other."

You can apply one general test to investments. If the rate of interest is low, they will be safe. If high they will probably contain a large risk. This bank pays 4 per cent. interest on deposits, which is as high as it can safely pay. Considering the safety and the ability to lay your hands on your money at any time, it is the best investment for your money.

SUPT. RAGSDALE SECURES TRUSTEES FOR DISTRICT NO. 6.

Messrs. Spence, Ashby and Burnley Will Qualify and Elect a Teacher.

After several unsuccessful attempts to secure trustees to operate the school in district No. 6, the Burnley district, County School Superintendent A. M. Ragdale secured the consent of three men to serve today and will appoint and have them qualify at once so that the opening of the school will not be delayed.

This makes the third appointment Supt. Ragdale has made and the first this year in which the appointees have accepted. The reason others refused to accept was that a \$300 judgment hangs over the district and a tax levy of not more than 25 cents on the \$100 can be levied but the debt will have to be paid.

The judgment was secured several months ago by Adam Temple for money loaned many years ago.

The new trustees are Messrs. W. W. Spence, T. J. Ashby and Ira Burnley and they will immediately start in to elect a teacher and start the school. They will also levy the tax this winter and collect the judgment from the people as quickly as possible. There are about 55 pupils in this district.

LOUIS CLARK, GROCER

MIRTH DIDN'T LAST

NEGROES LAUGHING AT HOW THEY OUTWITTED OFFICERS.

When the Officers, Who Were Close By, Appeared Soon Dispelled Their Mirth.

Last night Officers Moore, Churchhill and Aaron Hurley started to arrest Arthur Broyles, Henry Johnson, Mabel Grace and Ada Clerk, members of the 10th and Caldwell street "400" for being drunk and disorderly, when the quartette broke and ran.

The officers chased them several blocks and finally hid in a lumber yard to await the return of the negroes. Their patience was not sorely taxed, for pretty soon the four came back all out of breath but laughing over outwitting the police. "I done come mighty neah gittin' hung up in dat babed wah fence" one laughingly remarked as he sat down within half a foot of the hidden officers.

"I never did see the day dat Officer Huhley could outrun me," the second declared, and they they all took another laugh. A few more comments were made and when the officers thought the culprits had enjoyed themselves sufficiently, stepped out and with their pistols compelled the negroes to surrender. Judge Cross fined them \$3 and costs each in police court this morning.

Other cases were: Courtney Long, white, breach of ordinance, \$5 and costs; W. C. Stanford, white, violating Sabbath, continued.

RIVER NEWS

The Dick Fowler left on time this morning on her regular Cairo trip. The Reuben Dunbar leaves Nashville tomorrow evening and is due to arrive here Monday morning, leaving at noon for Clarksville.

The City of Saffola leaves St. Louis Saturday evening and is due here Sunday night on her way to the Tennessee river.

The Kentucky will have an excursion of Confederate Veterans this next trip. The excursion runs from Johnsonville to Shiloh.

Major J. H. Ashcraft goes up to day to Shiloh on the Savannah. Mrs. Peck, wife of Capt. Peck, of the Henrietta, is ill from malarial fever.

Capt. Max Scholt is in the city today and says that the pumping out of the Williams will probably begin tomorrow. If everything is alright it will take two or three hours to pump the boat out. The work of bulkheading her has been almost completed and no further trouble is expected. It is undecided as to where the boat will be taken for repairs.

The Kentucky arrived from the Tennessee river last night and is unloading at Metropolis and Brookport today. She leaves the wharf here tomorrow at 5 o'clock for the Tennessee river.

The Savannah is due up from St. Louis today.

The Wash Houshell was down yesterday and took up a lot of sawdust and material to be used in floating the Joe Williams.

The Henrietta left this morning for the Tennessee river.

The Pavonia arrived last night with ties out of the Tennessee river and left again this morning for the Tennessee.

The Catherine passed down this morning from the Cumberland river with rock.

The Joe Fowler was the Evansville packet today, but will probably be brought either here or taken to Mound City.

The Houshell is the only boat with the Williams, but the Pacific, the Alice Brown and the Fulton will arrive there tomorrow to assist in pumping out the boat and towing her here.

A new boiler is being put in the Monie Hauer by the Fowler-Wolfe company.

The work of cutting the Caruthersville in two and making her 20 ft. longer will be finished today and boat will be taken off the dry docks. The Caruthersville will leave for Caruthersville, Mo., as soon as possible.

An Evansville dispatch at yesterday says: "The towboat J. B. Finley, en route to Pittsburgh from New Orleans, passed Evansville at noon, and Capt. Robert Manning, who came off for supplies, denied emphatically that there had been any illness. The men are all in good condition, he says, and reports that possible cases of yellow fever are aboard are without foundation. The boat left New Orleans 23 days ago and cleared Memphis with a clean bill of health."

The towboat H. M. Hoxie is on the way from Cairo with five barges of coal for the Laclede gaslight company, this tow being the last of 213 barges entrusted in the contract for this year.—Globe Democrat.

Mr. Nathan Smith leaves tomorrow for Florence, Ala., to bring the American down to Paducah. She belongs to the American Oats Towing Co., of Decatur, Ala.

The snagboat Woodruff is coming down. Yesterday's Evansville Journal-News says: "Capt. John Westley, one of the pilots on the Hopkins, will take a turn at the wheel on the E. A. Woodruff, the government snagboat, when she leaves this city for Paducah. He will point out the places dangerous to navigation. Uncle Sam always employs a man experienced with the river by daily passage over it to mark the spots where sanken boats or menacing snags lie. The Woodruff put in several hours Thursday removing snags just around the point above the city."

Cripple Killed Himself.

Scottsville, Ky., Aug. 18.—"Bud" Gibbs, a well-to-do farmer of Allen county, three miles from this place, shot and killed himself, sending a bullet through his heart. Mr. Gibbs has long been a cripple, and only yesterday his physician told him his heart was seriously affected. He brooded over the information, and his suicide was feared by those at his home. All the afternoon he had been carefully watched by his sister to keep him from harming himself, and yesterday, when for the first time she left him but for a moment, he managed to get hold of a pistol and fired the shot. He was forty-two years old and single.

OFFICERS ELECTED

By the Kentucky Undertakers' Association.

Undertaker Fred Roth has returned from Louisville where he attended a meeting of the Kentucky Undertakers' association.

R. H. Elliott, of Williamstown, was unanimously chosen president. The other officers chosen were as follows:

W. J. Dunlap, of Danville, first vice president.

E. A. Gerard, of Bowling Green, second vice president.

John C. Schidt, of Louisville, secretary-treasurer.

N. N. Hooker, of Franklin, sergeant-at-arms.

The session was the most successful convention in the history of the association. Thirty-five new members have been received during the three days, surpassing all previous records. A balance is on hand of \$186.47.

A rule has been adopted prohibiting members from advertising except by the insertion of their business cards in newspapers and periodicals, it being held that this would tend to dignify the profession. The next convention is to be held in Lexington next August.

NOTICE.

KENTUCKY NEWSLETS

Killed By a Train.

Cadiz, Ky., Aug. 18.—Sam Winston, a negro, who makes his home at Cerulean Springs, was found dead by the side of the I. C. railroad track near Buffalo church between Cerulean and Gracey. He had been hit by the train.

Married at Fulton.

Fulton, Ky., Aug. 18.—G. B. Vanpool and Miss Ruth Neil, of near

Clinton, Ky., were married here last Sunday but the wedding was kept a secret until today. Both young people are very prominently connected and their marriage proved a great surprise to their relatives and friends.

Deaths at Fulton.

Fulton, Ky., Aug. 18.—Mrs. Mary Harlessen, widow of the late John Harlessen, is dead here at the age of 75 years. For the past twenty-five years she has been an invalid and death comes as a relief from her sufferings. She was the mother of Mrs. B. S. Shivel and belongs to one of the oldest families in the county. The burial occurred at Woodville, Ky.

John, the 13-year-old son of Mr. and Mrs. J. H. Morris, died of typhoid fever. He had been sick for several weeks, but was thought to be convalescent. The burial occurred at Mt. Moriah graveyard, east of town.

Henderson Refuses to Fight Fever.

Henderson, Ky., Aug. 18.—Henderson will spend no money in an effort to keep yellow fever out of the city. In the city council Dr. J. W. Stone and J. C. Mosley, representing the board of health, endeavored to get an appropriation of \$1,000 through for the purpose but it was promptly voted down. It is believed there is no likelihood of the fever getting this far north and the council refused to spend the money foolishly, as they considered it.

Mrs. Duke for President.

Hopkinsville, Ky., Aug. 18.—The Christian County Chapter of the Daughters of the Confederacy has started a movement to elect Mrs. Basil W. Duke, national president of the body which will hold its annual meeting in San Francisco during the first week in October. All the other Kentucky chapters will join in the movement and the election of Mrs. Duke is now considered probable.

Mrs. Duke is the wife of General Basil W. Duke, second in command under General John H. Morgan. General Morgan was Mrs. Duke's brother and General Ambrose P. Hill, one of the most distinguished corps commanders of the Army of Northern Virginia, was her brother-in-law.

Mrs. Duke is now president of the Kentucky Federation Daughters of the Confederacy, and is vice president of the national body.

Marriage in Marshall.

Benton, Ky., Aug. 18.—N. Henson, of Benton, and Miss Hattie Fields, of Briensburg, were married.

at the residence of Jesse N. Utley in Hardin, L. V. Henson, brother of the groom performing ceremony. They took the 7 o'clock train for Paducah from whence they went on the excursion to Old Point Comfort, Va., and will take in other points of interest in the east.

Mr. Henson is the county court clerk and also the Democratic nominee for re-election, and is one of the most popular men in Marshall county, and deservedly so. His bride is one of the most popular teachers of the county. She is the daughter of Mrs. Alice Gossett, of Briensburg.

Carbolic Acid Route.

Covington, Ky., Aug. 18.—Two suicides by carbolic acid occurred here within ten hours. Minnie Cornwell took the poison because her sister, Rose, chided her for having worn her jacket. Just before taking the fatal draught the girl handed a bracelet to a friend saying: "Keep this in memory of me; I'm going away." Stephen Young, aged 32, despondent because he was broke bought carbolic acid to "kill bugs" and ended his existence.

Claims Justification.

Cloyd's Landing, Ky., Aug. 18.—At Burkesville Dave Bowen shot John Surratt twice in the breast with a pistol killing him almost instantly. The killing is said to have been done without provocation and in the presence of several witnesses. Bowen surrendered immediately to the officers, claiming justification for his act upon the grounds that Surratt had invaded the sanctity of his home. Both men were near forty years of age, married, and Bowen is said to be half-witted.

Secretly Married in Fulton.

Mayfield, Ky., Aug. 18.—The marriage of Mr. Phillip Slaughter and bride, formerly Miss Nell Drake, of Holton, Kan., announced recently, was solemnized in January, 1905, by Rev. Folke at Fulton, Ky. The wedding was kept secret however, until July, when it was announced at the bride's home in Holton, Kansas. Mr. and Mrs. Slaughter will reside in the city, at the residence of Mr. and Mrs. R. W. Flood.

To Marry at Water Valley.

Mayfield, Ky., Aug. 18.—Mr. L. B. Long, a prominent young business man of Paragould, Ark., arrived here to marry Miss Alma Johnson, of Water Valley, Ky. Miss Johnson was raised in Tennessee, and it was while she was teaching school in Paragould that Mr. Long fell in love with her. They will reside in Paragould.

The Return of SHERLOCK HOLMES

The Adventure of the Golden Pince-Nez

No. 10 of the Series

(Continued from yesterday.)

"Now I will give you the evidence of Susan Tarlton, who is the only person who can say anything positive about the matter. It was in the forenoon, between 11 and 12. She was engaged at the moment in hanging some curtains in the upstairs front bedroom. Professor Tarlton was still in bed, for when the weather is bad he seldom rises before midday. The housekeeper was busied with some work in the back of the house. Willoughby Smith had been in his bedroom, which he uses as a sitting room, but the maid heard him at that moment pass along the passage and descend to the study immediately below her. She did not see him, but she says that he could not be mistaken in his quick, firm tread. She did not hear the study door close, but a minute or so later there was a dreadful cry in the room below. It was a wild, hoarse scream, so strange and unnatural that it might have come either from a man or a woman. At the same instant there was a heavy thud which shook the old house, and then all was silence. The maid stood petrified for a moment, and then, recovering her courage, she ran downstairs. The study door was shut, and she opened it. Inside young Mr. Willoughby Smith was stretched upon the floor. At first she could see no injury, but as she tried to raise him she saw that blood was pouring from the underside of his neck. It was pierced by a very small but very deep wound, which had divided the carotid artery. The instrument with which the injury had been inflicted lay upon the carpet beside him. It was one of those small sealing wax knives to be found on old-fashioned writing tables, with an ivory handle and a stiff blade. It was part of the fitting of the professor's own desk.

"At first the maid thought that young Smith was already dead, but on pouring some water from the vase over his forehead he opened his eyes for a instant. The professor, he murmured—it was she. The maid is married to a man who swears that those were the exact words. He tried desperately to say something else, and he held his right hand up in the air. Then he fell back dead.

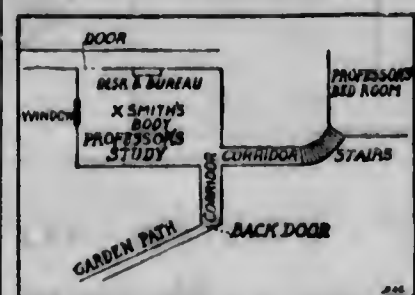

"In the meantime the housekeeper had also arrived upon the scene, but she was just too late to catch the young man's dying words. Leaving Susan with the body, she hurried to the professor's room. He was sitting up in bed, horribly agitated, for he had heard enough to convince him that something terrible had occurred. Mrs. Marker is prepared to swear that the professor was still in his night clothes, and, indeed, it was impossible for him to dress without the help of Mortimer, whose orders were to come at 12 o'clock. The professor declares that he heard the distant cry, but that he knows nothing more. He can give no explanation of the young man's last words. The professor—it was she, but imagines that they were the outcome of delirium. He believes that Willoughby Smith had not an enemy in the world, and can give no reason for the crime. His first action was to send Mortimer, the gardener, for the local police. A little later the chief constable came for me. Nothing was moved before I got there, and strict orders were given that no one should walk upon the paths leading to the house. It was a splendid chance of putting your theories into practice, Mr. Sherlock Holmes. There was really nothing wanting."

"Except Mr. Sherlock Holmes," said my companion, with a somewhat bitter smile. "Well, let us hear about it. What sort of a job did you make of it?"

"I must ask you first, Mr. Holmes, to glance at this rough plan, which will give you a general idea of the position of the professor's study and the various points of the case. It will help you to following my investigation."

"He unfolded the rough chart, which I here reproduce, and he laid it across Holmes' knee. I rose and, standing behind Holmes, studied it over his shoulder.

"My examination showed me that I was dealing with a cautious and expert criminal. No footmarks were to be found on the path. There could be no question, however, that some one had passed along the grass border which lines the path and that he had done so in order to avoid leaving a track. I could not find anything in the

Hopkins' plan of Yoxley Old Place.

nature of a distinct impression, but the grass was trodden down and some one had undoubtedly passed. It could only have been the murderer, since neither the gardener nor any one else had been there that morning, and the rain had only begun during the night.

"One moment," said Holmes. "Where does this path lead to?"

"To the road."

"How long is it?"

"A hundred yards or so."

"At the point where the path passes through the gate you could surely pick up the tracks?"

"Unfortunately the path was tiled at that point."

"Well, on the road itself?"

"No, it was all trodden into mire."

"Tut! tut! Well, then, these tracks upon the grass, were they coming or going?"

"It was impossible to say. There was never any outline."

"A large foot or a small?"

"You could not distinguish."

Holmes gave an ejaculation of impatience.

"It has been pouring rain and blowing a hurricane ever since," said he. "It will be harder to read now than that palimpsest. Well, well, it can be helped. What did you do, Hopkins, after you had made certain that you had made certain of nothing?"

"I think I made certain of a good deal, Mr. Holmes. I knew that some one had entered the house cautiously from without. I next examined the corridor. It is lined with coconuts matting and had taken no impression of any kind. This brought me into the study itself. It is a scantily furnished room. The main article is a large writing table with a fixed bureau. This bureau consists of a double column of drawers, with a central small cupboard between them. The drawers were open, the cupboard locked. The drawers, it seems, were always open, and nothing of value was kept in them. There were some papers of importance in the cupboard, but there were no signs that this had been tampered with, and the professor

No Benefit No Cost.

If you are weak and worn-out—if you are nervous, irritable, have headache, backache, neuralgia, or periodical pains, it is because you have exhausted your nerve force.

If you cannot sleep, and are thus robbed of the rest which nature demands for the restoration of mental and physical vigor, your system will continue to run down.

Dr. Miles' Nervine restores vitality by soothing and strengthening the nervous system, thus inducing refreshing sleep, and imparting strength and vigor to all the organs of the body.

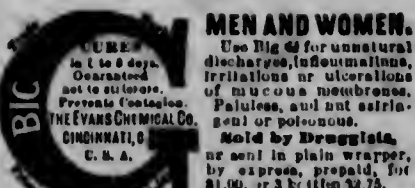

There are very few instances where Nervine will not benefit; if not, your druggist will refund the money.

"When I began taking Dr. Miles' Nervine I had a very sour stomach, with pain extending far around on my left side—attended with extreme nervousness. I dreaded to leave my room, as it was impossible for me to sleep. Everything I ate distressed me. Before I had finished one bottle of Nervine there was such a change that my husband bought six more, which has restored me to health."

assures me that nothing was missing. It is certain that no robbery has been committed.

"I come now to the body of the young man. It was found near the bureau, and just to the left of it, as marked upon that chart. The stab was on the right side of the neck and from behind forward, so that it is almost impossible that it could have been self-inflicted."

"Unless he fell upon the knife," said Holmes.

"Exactly. The idea crossed my mind. But we found the knife some feet away from the body, so that seems impossible. Then, of course, there are the man's own dying words. And, finally, there was this very important piece of evidence which was found clasped in the dead man's right hand."

(To be continued.)

Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. BUCKLEN & CO., Chicago, Ill., and Windsor, Canada.

DIED OF TYPHOID.

Mrs. Florence Bayne Succumbs After Several Weeks.

Mrs. Florence Bayne, of North 8th street, died this morning from typhoid fever after a five weeks' illness. She was about 35 years old, and was wife of Mr. James Bayne, an attaché of the Paducah Brewing company.

She was a daughter of Mr. A. B. Holt, of near Ogden's Landing, and leaves besides a mother, two brothers, Messrs. W. L. and George Holt, and two sisters, Mrs. Goode and Mrs. Harper. The remains will be taken to Ogden's for burial tomorrow.

RHEUMATISM.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and \$1.00 at Alvey & List, and G. C. C. Kolb's drug stores.

Little Hope of Recovery.

Scottsville, Ky., Aug. 18.—Hon. J. E. Dalton, representative in the lower house of Kentucky from Allen county, who stuck a rusty wire nail through his foot one day last week, is in a critical condition, and unless he can secure relief within the next few hours there is little hope of his recovery. Mr. Dalton had announced himself as a candidate for election as representative.

Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly affected grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by W. B. McPherson, druggist, at 50c bottle.

Shot By Negro Tramp.

Hopkinsville, Ky., Aug. 18.—Near Casky, Brakeman Ed Haney attempted to put two negroes, who were stealing rides, off a freight train. One shot him with a pistol through both arms. The other negro was shot in the neck by a trainman who came to Haney's aid.

Cures Scurvy.

Rev. W. L. Riley, L. D. D., Cuba New York, writes: "After fifteen days of excruciating pain from scurvy, I was induced to try Ballard's Snow Liniment; the first application giving me first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c and \$1.00 at Alvey & List and G. C. C. Kolb's drug stores.

ENGINE TEST.

Big Locomotive Could Not Pull Train Over Iron Ore Hill.

The first test of the big freight sent here for trial, on the Paducah and Louisville districts of the I. C. was not so satisfactory as it was thought it would be, the engine being unable to take the 1,300 ton train over Iron Ore Hill without "doubling."

She took the other hills all right but bucked at Iron Ore which is one of the highest grade hills on the division. The big engine has not been thoroughly "limbered" up yet and the traveling engineer and master mechanic are looking after her rather closely.

Today the engine was started out again with a 1,100 ton train and will test Scottsburg and Underwood hills this side of Cedar Bluff. Supt. A. H. Egan, of the Louisville division, went up with the train in his private car.

After the engine has been tested on the grades between Paducah and Central City, she will be taken to the Louisville district to test between Central City and Louisville.

HERBINE.

Restores the bile more fluid and thus helps the blood to flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and over-indulgence in food and drink.

G. L. Caldwell, Agt., M. K. and T. R. R., Checotah, Ind. Terr., writes, April 19, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured when my druggist advised me to use Herbine. It has made me sound and well." 50c at Alvey & List, and G. C. C. Kolb's drug stores.

Complaint Upheld.

Louisville, Ky., Aug. 18.—The state railroad commission has upheld the complaint of citizens of Owensboro and Henderson against the Illinois Central, Louisville & Nashville, Henderson & St. Louis railroads, alleging that the roads discriminate in rates in favor of Evansville and recommends that complaint be lodged with the interstate commerce commission.

Stop That Cough.

When a cough, a tickling or an irritation in the throat makes you feel uncomfortable take Ballard's Horehound Syrup. Don't wait until the disease has gone beyond control. Mr. and Mrs. J. A. Anderson, 354 West 5th St., Salt Lake City, Utah, write: "We think Ballard's Horehound Syrup the best medicine for coughs and colds. We have used it for several years; it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25c, 50c and \$1.00 at Alvey & List, and G. C. C. Kolb's drug stores.

Good Prison Record.

The Chester penitentiary did not record a single death in a period of eight months and eight days and it is claimed this record is not beaten by any other prison in the United States. During this period there have been from 950 to 1,050 prisoners confined. A negro convict named Stewart died there November 23, 1904, of heart failure, after a hearty dinner, making the last death in the prison.—Metropolis Herald.

Agonizing Burns.

Are instantly relieved and perfectly healed by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain and healed it without a scar." Also heals all wounds and sores. 25c at W. B. McPherson's druggist.

THE SCHOOLS

CALLING MEETING OF BOARD OF EDUCATION NEXT WEEK.

McKinley Building Nearing Completion—Repairs Are About Finished.

On account of pressing business on the part of committee members the called meeting of the school board will not be held this week but will probably be called for Monday or Tuesday of next week.

Supt. C. M. Leib is working hard getting matters into shape for the opening of school next month. There remains less than a month of vacation and the school officials are preparing for the opening, that no hitch occur.

Work on the McKinley school in Mechanicsburg is progressing nicely and it is thought will be ready for service by the opening of school. The work was delayed by various things, but only the roof and the interior work have to be completed now.

All other schools are in good repair and ready for the opening. The heating plants are being looked after, and preparations made to prevent any inconvenience from cold rooms. Last season some little trouble was experienced from bad heating facilities and this will be guarded against this winter.

The county changes books this season but the city does not, the state adoption going into effect in the city schools last season. Only drawing books will be changed, the Prang system being substituted for that now in use. Miss Kolby, an instructor from the Prang Institute, was sent here this summer to instruct the teachers in art of instruction, and the teachers are prepared to take up the new system, and teach it with better results than the old.

Through Colorado and Utah.

The Denver and Rio Grande, with its numerous branches penetrating the Rockies, have two distinct and separate lines across the mountains. Tickets reading via "The Scenic Line of the World" between Denver and Salt Lake City or Ogden, are available either via the main line through Leadville Canon of the Grand River and Glenwood Springs or via the line over Marshall Pass and through the Black Canon of the Gunnison. Tourists to and from Salt Lake City, Ogden or San Francisco, will find it to their advantage to have their tickets read in both directions via this route, thus being able to use one of the above lines going and the other returning. Write S. K. Hooper, G. P. and T. A., Denver, Col., for illustrated pamphlets.

Confederate Monument.

Dr. D. G. Murrell, chairman, expects to call a meeting of the monument committee in a few days to take some action in regard to the fund to be raised here to erect a monument to the Confederate men and women. It is thought that contributions will be many and liberal. The soliciting committee is composed of D. G. Murrell, J. E. Potter, Joseph Ullman, S. A. Fowler, George C. Wallace, R. M. Miles, J. R. Coleman, H. H. Scott and Ed P. Noble.

Republican Convention at Wickliffe.

Bardwell, Ky., Aug. 18.—James A. Miller, chairman of the republican legislative committee of this legislative district, has called a meeting of the committee to be held at Wickliffe August 26, at which time a republican candidate for representative will be named. It is stated that Will L. Ellison, of Carlisle county, will be tendered the nomination.

Visited His Old Home.

Mr. Lou Barnes, of Paducah, spent several days last week with old friends at Canton. Mr. Barnes lived at Canton when a young man, but went to Paducah about seventeen years ago, and has been very successful in business, and now owns several small boats. Many old friends in Trigg were glad to see him.

Bitten By a Snake.

The little eight-year-old son of Mr. J. D. Roe, of the Mint Springs neighborhood, was bit by a poisonous snake last Friday evening while on his way home from school, which almost caused his death. Mr. Roe was in town Monday and reported that his son was still in a serious condition.—Smithland Democrat.

and as he responds the envelope is handed him. Colonel Ayres made a wonderful record at the world's fair, which he will try to eclipse here in Paducah.

Bardstown Cadets.

A number of persons have asked if the Bardstown Cadets are a part of the state guards, which they are under the statute guard law, Section 48 reading as follows: "In the organization of any battalion or regiment there may, in the discretion of the governor, be added a company or companies of cadets, to be equipped and drilled, as the orders of the governor may describe; the ages of the members of the cadet corps shall be between fifteen and eighteen years. Cadets under the age of eighteen shall not be required to do any military duty outside their counties except in drills and camp of instructions; but all cadets shall otherwise, so far as their organization, discipline and privileges go, be governed by the same laws as the Kentucky state guard." Captain Crawford, commandant, is contending for pay for the cadets, but General Haly is not certain that they can draw salary during encampment. He says the company intends to put the salaries of each member into a fund for their department at the college. Likely the salaries will be allowed but held by the paymaster until a higher authority passes on the question.

Soldiers Arrested Released.

Over a hundred soldiers were arrested early yesterday afternoon by the provost guard and were corralled near Tenth and Broadway where a special train of five street cars was called and the men carried back to the camp. A report reached General Haly shortly before dinner that several soldiers were disorderly in the city, so Second Lieutenant Lamar Roy, Second battalion, provost martial, with several guards, was sent to the city with orders to pick up all soldiers and bring them back. He soon had such a large number that reinforcements were sent for and another detachment ordered to report to him. There was no sign of trouble, not a single soldier resisting. After the men were marched to General Haly's headquarters he soon learned that they had gone to the city through a misunderstanding, while several had permission from their superior officers. The men who went off without permission did not think there would be any duties to perform as it was their first day in camp. Colonel Gaines gave the soldiers a nice talk, stating while they had committed no offense, this time, the lesson should teach them that the officers are always on the alert and in touch with their soldiers, no matter what they are doing. He said they should remain at the camp during hours for routine duties but when off duty they could and do as they pleased, so long as they conducted themselves properly. In fact he wanted them to get all the pleasure out of the encampment they could. They were allowed to return to their companies after Colonel Gaines had finished.

A Popular Department.

Probably the most popular department at Camp Yeiser is the commissary department. Its officers do most of their work in the early morning hours and have the rest of the day in social pleasures. Many officers from other departments, especially the legal and artillery, are frequently assigned as special social aides. The motto adopted by the department is: "I do confess with many a sigh My lips have told you many a lie, And who, with such delights in view, Would lose them for a lie or two?"

ENCAMPMENT NOTES.

Capt. H. C. Mechling, company C, was quite sick yesterday but was able to be on duty today. He is a physician and physical director of the Y. M. C. A. at Louisville. His company is known as the "Y. M. C. A. company."

Lieutenant Williams, company I, was ill this morning but returned to his company this afternoon.

Lieutenant Lamar Roy, of the Second battalion, is one of the best drilled and disciplined soldiers in the regiment. He is also very handsome and a bright young man.

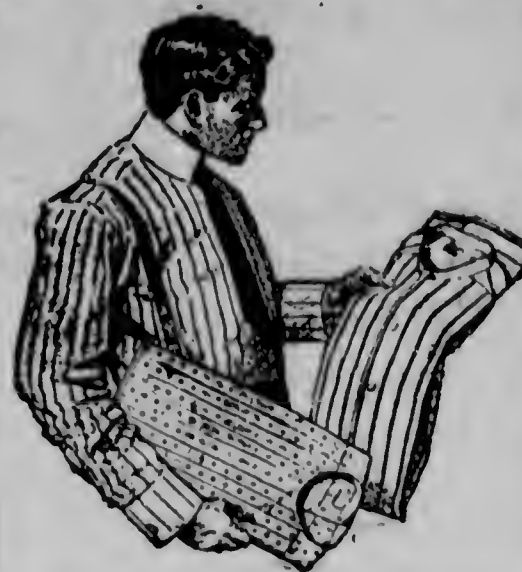

Five members of company I bought a turkey yesterday morning and in the afternoon dressed it back of the company's kitchen. Captain Meyers regimental surgeon, discovered the feathers and about supper time paraded the company out to the pile of feathers to watch the men who picked the gobbler gather them

up. The offenders were then marched to the crematory, half a mile off, where the feathers were burned. The company was called out for the purpose of giving it an object lesson.

Colonel Gaines said today that he would not take up the Elmer Townsend case until the suit pending against him in the circuit court is disposed of.

Colonel Gaines has patented a coffee boiler which he expects to reap him a small fortune. It is called a "coffee man." The boiler is arranged so it can be carried on a man's back while soldiers are in the field. During

battle soldiers go for hours without food or coffee but by this invention coffee can be served at all times. The back is hollow and two of them are hooked together and put on iron legs. The hollow backs form a fine and it takes but a few minutes to have hot coffee after fire is built under a pair of them. Each boiler holds eleven gallons.

Prof. Wm. Deal's band reinforced by two members of the Frankfort regimental band, is furnishing music for the First regiment.

Colonel Briggs returned from Frankfort without his mustache. His

close friends say he is in disguise.

Mrs. John W. Gaines, of Frankfort, Mrs. William Morrison, Mrs. Alice Gaines and Mrs. Lizzie Walker, of Eddyville, and Mrs. Elizabeth Walcutt, of Lakeland, are guests today of the former's sons, Colonel Noel Gaines and Major Howard Gaines. Although Mrs. Gaines' sons have been in the service of the state guards for several years this is the first encampment she ever attended.

Lieutenant Hutchinson is almost entirely confined to his quarters today owing to a bullet on his left foot, which Colonel McCormack is

treating previous to removing it. The bullet has given him much trouble for years.

The signal corps will give another dance at the park pavilion tonight to the general public. An admission of 50 cents will be charged gentlemen, ladies free. The first dance given by them when the Second regiment was here was a delightful affair and well attended. Perfect order is kept by guards.

Captain E. H. Crawford, commandant of the Bardstown cadets, brought his automobile with him. He and Colonel Hindman were out with

their autos last night with some of the general officers. They speak highly of Paducah's fine streets, which they say are ideal for automobilizing.

The Louisville men are enjoying the lake. There is always a crowd bathing day and night.

Company D, the Bardstown cadets, is at the rifle range today.

The crowds have already begun to increase since the Louisville boys came. This afternoon a vast throng will witness dress parade.

Small Blaze in Woodshed.
The Nos. 2 and 4 fire departments were called to Fifth and Norton streets this afternoon about 1 o'clock to extinguish a small blaze originating from a barbecue. Some negroes were barbecuing meat in the rear of the Speed barber shop when the woodshed caught fire. The blaze had not gained much headway when the firemen arrived, and little trouble was experienced in extinguishing it. The damage will amount to little.
